Recordings now available for "The Metadata [R]evolution: Transformative Opportunities"

Recordings now available from
The Metadata [R]evolution: Transformative Opportunities

18 September 2013
Hosted by Johns Hopkins University and streamed live via the Web

Many thanks to our speakers and the more than 1,000 individuals who participated in person and virtually! Here are the links to materials from this event. In addition to video and slides, you may also view the chat archive online.

**Presentations**

**Welcome & Introduction**
Winston Tabb, Dean of University Libraries and Museums, Johns Hopkins University

[Video]

**Data, Data in the Cloud, Libraries Are Clearly Well-Endowed**
James G. Neal, Vice President for Information and University Librarian, Columbia University

[Slides and Video]

**Metadata at the Center of Knowledge**
Roberta Shaffer, Associate Librarian for Library Services, Library of Congress

[Slide and Video]

**Collective Impact and the Power of Shared Data**
Bob Schulz, Senior Product Manager, OCLC

[Slides and Video]

**Q&A with Roberta Shaffer and Bob Schulz**
[Video]

**Transforming Role - Text ==> Data: the GW BIBFRAME Journey**
Jackie Shieh, Coordinator, Resource Description, George Washington University Libraries

[Slides and Video]

**Making Research Data Discoverable and Usable**
Anita de Waard, VP Research Data Collaborations, Elsevier

[Slides and Video]

**Using VIVO, Scopus, and PubMed to Disambiguate Weill Cornell Authors**
Paul Albert, Assistant Director of Research and Digital Services, Weill Cornell Medical College

[Slides and Video]

**Panel Discussion**
Moderator: Barbara Preece, Director, Loyola/Notre Dame Library. Panelists: Jackie Shieh, Anita de Waard and Paul Albert.

[Video]

**Putting It All Together**
Bob Schulz, Senior Product Manager, OCLC

Upcoming Collective Insight Events

03 October 2013
Collective Insight: Big Data and the Cloud
Webinar: 2:00 – 3:00 pm, Eastern Time

Join Mike Teets and Matt Goldner, authors of "Libraries' Role in Curating and Exposing Big Data," to learn about OCLC’s WorldCat database and how it is working to become a relevant and useful source in the Web of big data and cloud computing. Hear how OCLC has begun work on the knowledge graph for this data and OCLC’s active involvement with Schema.org in working to make this data useful throughout the Web. Tweet #InsightSeries #OCLC.

15 October 2013
Getting off the Island: Collaborating to Create Boundless Collections
Live Webcast: 9:00 am – 3:30 pm, Pacific Time

Collections that support research are evolving as technology continually influences information-seeking behaviors and techniques. Today, collections can extend well beyond the walls of any one library sparking new and unconventional partnerships across library types. These unique collaborations test the boundaries of current practice in the way they approach research needs and exploit the benefits of the network.

Join OCLC and our event partners, SCELC and Loyola Marymount, for this interactive program where we will explore current and future opportunities to share our print and electronic collections at network-scale.

- Bill Carney, Content Manager, OCLC
- Lynn Silipigni Connaway, Senior Research Scientist, User Behavior Studies and Synthesis, OCLC Research
- Linda Di Biase, Collection Development Librarian at University of Washington and Chair of the Ebook Working Group of the Orbis Cascade Alliance
- Kathi Fountain, Collection Services Manager, Orbis Cascade Alliance
- Bob Kieft, College Librarian, Occidental College
- Michael Levine-Clark, Associate Dean for Scholarly Communication and Collection Services at University of Denver and Co-chair of the Shared Collection Development Committee of the Colorado Alliance Research Libraries
- John McDonald, Associate Vice President and Chief Information Officer, Claremont University Consortium
- Emily Stambaugh, Shared Print Manager, California Digital Library, Assistant Project Manager, Western Regional Storage Trust (WEST)
